

We're now going to ask you about your family history

...

Have your birth parents, brothers, or sisters had any of these **before they were 60**?

Please select all that apply...

Angina, heart attack or stroke

Cardiomyopathy

Diabetes

Bowel cancer or bowel polyps

Breast or ovarian cancer

Female only option

Any other cancer

Huntington's disease, motor neurone disease or muscular dystrophy

Alzheimer's disease, multiple sclerosis or Parkinson's disease

Polycystic kidney disease

I don't know

No

You don't need to tell us if your family member was 60 or older when they first had their condition
