

We're now going to ask you some questions about your general health

...

Apart from anything you've already told us about, have any of these applied to you in the **last 3 years**?

Please select all that apply...

I've taken or been prescribed treatment for 4 weeks or more

I've been advised to have a follow-up or review with a GP, hospital or clinic

I've been advised to have a consultation with a specialist

I've had or am waiting to have tests, scans, investigations or counselling

No

You don't need to tell us about:

- Antibiotics for one-off chest infections
- Infertility treatments
- **Pregnancy and terminations**
- Well-person checks or employment medicals that have had no adverse findings and did not require any follow up

Female help text

...

Apart from anything you've already told us about, have you had any of these in the **last 3 months**, even if you haven't seen a doctor?

Please select all that apply...

Any changes of either breast including lumps, growths, hardening or nipple abnormalities

Bleeding from the bowel or a change in bowel habit

A cough lasting more than 3 weeks

Unexplained weight loss

A fit or seizure

A mole, freckle or skin blemish that's bled, become itchy or painful, or changed in appearance

Any other symptom that I'm planning to consult a medical professional about

No
